

Full- or Parttime

The right position isn't there yet, but you want to be a part of the journey? Then let's talk together about your mission at SNOWGLOBE.

WE ARE

A young company from Hamburg that drives data-based transformation through the connection between people and technology. With the combination of cloud-based platforms, individual software solutions and consulting, we accompany our partners on the individual DataValueJourney in order to generate true value from their company data.

YOU WILL FIND

- a flexible and value-oriented company with flat hierarchies and room for self-realization.
- a working environment in which appreciation, self-efficacy and goal orientation are very important.
- because SNOWGLOBE is not shaped by individuals but by the entire team.
- the latest hardware of your choice for each employee (Mac, PC).
- trusting cooperation and communication, flexible working hours and locations.
- personal and professional development according to your individual needs and requirements.

Sounds good? Just send us an email.

We are looking forward to get in touch with you.
